

Nature's Aid skin gel - **Success Stories**

All natural . . . because we care

(Read Our Pet Success Stories)

My husband has had a pre-cancer spot on his cheek removed surgically several times. We have been using Nature's Aid since early this spring and the rough, red spot is barely visible now. It looks almost completely healed. He uses it very sparingly but it does a wonderful job. Nature's Aid advertises that it does many things and we not not found one that does not work!

We still have lots. We are very careful and don't waste any.

Isn't it hot!!

Rosemary R.

New Germany, Nova Scotia

I'm writing to you from Florence, Italy because I am so impressed with your gel. A few days ago, I fell while walking into a store and went flying in the air. I bruised my knee, ankle (not broken, just sprained) and my wrist. The vein on my wrist popped into a deep purple and it became very painful. I struggled to get back to the hotel so I could put Nature's Aid skin gel on my wounds. After applying the gel to my knee, ankle and wrist, I noticed the pain subsiding, the swollen deep purple vein in my wrist went down and it returned to a normal color.

My husband and I always travel with the gel and we always seem to use it for different reasons. We bring it along because both of us use it daily. My husband applies it every morning after he shaves and I like it for my hair (mousse) and as a facial toner. I wish that I had taken a picture to show you the difference it made to my wrist. We are also going to Barcelona for a beach holiday so I'm positive we will have other reasons to use it. It's excellent to use after you've been in the sun. This gel is a MUST have for everyone. Many Thanks

Louise and Al

Toronto, ON

Hi, I'm wondering where I can buy your gel in Montreal.

That's perfect, thank you - there's a location not too far from me... i can continue to feed the addiction!!

You guys make a great product!

Justine

Montreal, QC

I recommend Nature's Aid skin gel to my patients and they find it soothing and enriching on their skin in addition to being therapeutic for burns and skin conditions. I use it myself on a daily basis and my massage therapist uses it in her practice. I recently had occasion to use the gel on my sunburn. I applied it 2-3 times over a 12-hour period and found it to be soothing, but, best of all, I did not blister or peel. This is a product I will continue to recommend to my patients.

Kate Reid,

Naturopathic Doctor

Nature's Aid skin gel - **Success Stories**

I have just got back from Canada, and whilst there purchased some Natures Aid skin gel - I am very impressed!! Do you have any outlets in the UK where I could purchase more?

Look forward to hearing from you.

Gill Nolan

UK

Nature's Aid skin gel is an amazing product used by many customers here at Paris Natural Foods, the largest Health Food store in the Greater Sudbury area.

We recommend Nature's Aid to our customers because it works for just about everything. This very effective product outsells all of our other creams and gels combined, and is fast becoming a household name for its healing properties.

Nature's Aid customers tell us they love it for eczema, psoriasis, sunburns, acne, razor burns, itchy skin, cold sore, insect bites, burns, cuts, scrapes, bruised, rashes, pain, swelling, and various infections because they know they can safely use it on themselves as well as the kids and even the pets!

It's a 'beauty treatment – first aid' gel combined into one that has customers hooked on its benefits telling friends and family about it, and coming back for more.

Our customers love this unique gel so much, it's guaranteed to have a place on our shelves for years to come.

Abdul / Paris Natural Foods

Sudbury, ON

I have been an eczema sufferer since childhood; four years ago, I had a severe outbreak. I was prescribed countless creams and ointments containing cortisones and steroids, however none of them were able to provide any relief.

About four months ago, I was introduced to your product. What a difference! All natural, soothing, and it works! Not only does it provide the relief I have been looking for, it has also repaired many areas of my skin that I thought would be permanently damaged. Thank you Nature's Aid.

Pam

Elliot Lake, Ontario

I just wanted to thank you for getting Nature's Aid in the health stores. My brother-in-law at the time was suffering from a foot fungus for a number of years. He did not go to his family Allopathic doctor for treatment so, I suggested that he try a natural based ingredient product. That week on my way to visiting with him, I stopped by a local health food store in Mississauga and asked for a small bottle of Tea-Tree Oil. The cashier introduced me to a small trial size of Nature's Aid instead and did a good job of promoting the product. I read the small informative brochure and bought the trial size and said I would get him to try it. Well, I thought to myself if I spent \$3.99 for the trial size and he does not like it, well, then I tried. I told him to keep the small trial size container. I called the store and ordered one of the largest containers, the 500 ml size. I place it under the tree for him as a Christmas present. So, now he fills the trial size and uses it at work and the large container stays at his home, which come to think of it should be empty by now, and that means another trip to the health store.

Update: Larry says that his feet are no longer cracked, dry and itchy. They are smooth and subtle again!

J Bradley

I'm a Registered Nurse in Sudbury. I've been using your product for ~5 yrs. (recommended by one of my sister's friends)...& I absolutely LOVE it...for just about anything related to the largest human bodily organ! I had obtained some of your pamphlets during one of my Nature's Aid purchases from Paris Natural Foods to hand out to family, friends, & most regularly to my patients with any form of dermatological problem.

P.S. THANK YOU WHOLEHEARTEDLY FOR CREATING SUCH A MAGNIFICENT NATURAL PRODUCT...MUCH APPRECIATED!

Linda

Sudbury

Nature's Aid skin gel - Success Stories

About 7 or 8 months ago, a friend recommended Nature's Aid for the psoriasis on my scalp. I had tried just about everything, but nothing worked. It drove me crazy. I felt immediate relief with my first application of Nature's Aid and it didn't take long before it was all cleared up. Even though the psoriasis has cleared up, I've continued applying it on my scalp (also my face and body) after washing my hair which is every other day instead of everyday and have noticed that my hair doesn't get as greasy. I've also noticed that my hair has more body.

The biggest BONUS is that I've been growing new hair. My daughter has noticed that my scalp is not as noticeable as before. I can see new baby hair growth on the sides and top of my scalp that are about 5 inches long. I'm just thrilled.

Joanne R.
Ontario

Being sensitive to bee stings, I was very concerned when I was attacked by several bees and stung 5 times. My wife quickly applied Nature's Aid skin gel, and to my amazement, there was no itch, redness or discomfort. The only sting that caused me grief was the one I had noticed later (where we did not put Nature's Aid on) located behind my knee. It had swelled 3 to 4" in diameter, was red and very uncomfortable. Again, my wife suggested Nature's Aid gel, and about a half hour after applying the gel, the swelling diminished to just about a dot, the redness had disappeared and the discomfort was completely gone.

Not long after the sting incident, I developed hives everywhere. Once again my wife suggested Nature's Aid and within 15 minutes, all of the hives were gone!

Now I know why she always keeps a few bottles around the house. Great stuff!

Ontario

I purchase Nature's Aid at an equine store for my horses. All the ladies say they couldn't be without it, on a personal basis as well. So I bought it thinking it was only for horses or animals.

Is there any difference in the product if I purchase it from an equine store or at a beauty salon? I am assuming not but when I tell my family I bought it for my horse, let me try it on you ... they back away.

So, just wondered if the packaging was different, less expensive in the other 'human' stores? Please advise. In the meantime my Dad is putting it on his feet and it has helped keep them pain free for at least two weeks now!

I find the labeling is quite nice and I should probably just never mentioned about the 'horses'!. At any rate, I will continue to use it, bought more for my Father. You have no idea how happy it makes me feel to know that he finally has some relief from his pain, and after all the doctors have done for him!!!

Yes, you may use my e-mail in whatever manner you wish. I stand by your product having experienced it first hand for myself and for my father Who is a very hard man to get to try anything. Now he is very, very thankful!

Thank you so much

Linda Risler

Recently I purchased a bottle of Nature's Aid while I was in Sudbury. It was for my golden retriever who has skin problems. I also tried it on my own skin and was very surprised at how well it work. I'm very happy with your product and would like some information on selling this product in my town.

I do have a small natural skin care business and would be really interested in promoting your product. Please send me information to the above email address. Thank You Very Much,

Tracey Antoniazzi
Beauty by Nature

Before I started my radiation therapy I began a regime of applying Nature's Aid to the area that was to be involved.

The scar from surgery is almost invisible and there was not even a hint of redness, let alone a burn, from the radiation treatment. I have bought this gel for a few people who have told me that they will be receiving radiation treatments and have had only positive feedback.

Beth
Ontario

Nature's Aid skin gel - **Success Stories**

I would like to offer you some positive feedback regarding your Natures Aid skin care product. My daughter suffered from a severe skin condition; which covered both area of the back of her arms. I tried other products, but none of them worked. When I applied the Natures Aid skin gel, I saw incredible results after only two days. Her skin condition was almost non existant. After three days, it was completely gone. I fully support your product and would recommend it to anyone I know. I currently live in Thunder Bay Ontario, but none of the health food stores up here sell your product. I attempted to order more of your product from your company, but I was told, that I could not purchase it; unless I was a retailer; so I have since contacted both health food stores in Thunder Bay; passed on your contact information to them and they have since informed me, that the product I requested has now been ordered. Your company produces an amazing product and it is made in Ontario. I stand behind your product completely.

D. Sgueglia
Thunder Bay, Ontario

Your product is wonderful - my 9 month old suffers from eczema and we cannot believe the difference already. Thanks again. :)

Dana
Ontario

I have been using it to personally combat my adult acne and it has been working beautifully along with healing up my daughter's scars left behind for which she had stitches in her eyebrow and hair is starting to grow back too - it's healed so much better than we could have hoped since May - the scars are there but clean and light pink now. Scrapes & sores heal so much faster when applying it right away. Burns too.

Also - it is the best insect bite itch reliever I have found - if you get it on right away they are gone over night - it takes a little longer for older bites that were scratched and not applied right away.

We also found that it has helped to clear up the skin condition my young guinea pig (Moe) was afflicted with. We had no idea what was happening with his fur & skin that was really red, started scabbing & losing hair around his hind left leg 8 days after we adopted him from a pet store.

His vet visit was still covered under the store guarantee but they could not get him in for another 4 days so I read up on how Nature's Aid was safe for Pets and took a chance that it wouldn't kill or hurt Moe if he ingested it. I gently peeled the scabs off where they were dry and massaged in the gel twice a day - by the time the vet saw him, he couldn't be certain it was ringworm as the scabbing stopped and the redness was not as bad either in that area, but still felt that is what was wrong with him. He gave us a prescription cream and said don't use anything else with it if other areas started - not even the Nature's Aid which I showed him and explained how I used it.

Of course Moe came down with other lesions on different parts of his body which I used only the prescribed cream - after 2 weeks of the cream not working that well, I went back to the Nature's Aid and it is looking much better, stopped the scabbing around his eye and his poor nose within two days. Now just a couple of weeks later his leg is completely healed, his eyes & nose too - unfortunately another area around his shoulders and neck have started, but with the Nature's Aid it didn't even start scabbing - just redness & thinning hair. Ringworm I guess can be very aggressive. Fortunately his brother that we adopted at the same time has not come down with it - and no transfers to me or my kids. We faithfully use the Nature's Aid on our hands and arms after holding Moe & washing our hands first.

I can't say Moe likes having it applied - it stings a little when the skin is really raw - but it soaks right in and goes along way with a small amount.

This is a marvelous product and I have been telling anyone I know about it.

My neighbor just purchased a small bottle to try on her eczema which affects her hands & fingers. I hope it will work for her too! Many thanks!!

Nature's Aid skin gel - Success Stories

Thanks so much for making such a great and simple product. I found it at a Tack Shop at the Royal Winter Fair. The woman working there handed us samples and I tried the tester bottle right on the spot. My hand had been pretty raw from some intense housework and also the indoor heating drying the skin out. I felt instant relief as my skin felt like it drank in the gel. I bought a bottle right away!

I also had a rash around my nose, and thought it was eczema, as it had been there on and off for months. I tried olive oil and other natural remedies, but it persisted and was getting painful. I finally got a prescription from my doctor. Before filling it out, I thought I should try the Natures Aid gel...the inflammation went down right away, along with the redness. I've been using it daily for over a week and it is almost completely gone. Wish I had taken pictures to document it. Thanks again. I love the gel and find it is perfect for my face and hands, not greasy, yet very moisturizing. Love it.

Larissa P.
Ontario

Dear people at Natures Aid,

Last year I attended the UKC premier show in Kalamazoo, MI. In my exhibitor bag was a small sample of skin gel... This past winter, after visiting my vet and putting my dog on topical medications...which never worked, I pulled out the Gel. Gypsy (my dog) stopped scratching at her ear, the scab from all her scratching healed over. within 10 days, it was amazingly better. She has some scaring there now, from not using the Gel sooner. She was scratching for about 4 months.

I just would like to say how wonderful this product is. It truly works!! My son and I use it faithfully, usually purchase a pump size bottle for my son's Christmas stocking. I have my sister and her family using it as well.

Would you be able to send me the various locations to purchase more in my hometown of Sudbury Ontario.

A loyal customer.

Lorie S.
Sudbury, ON

I am a salon owner and operator. I have had sever skin problems on my hands for 30 years. A friend gave me a sample of your product and after having it in my purse for over a week, I decided to try it one night after waking up one evening with such pain and itching, I was desperate for something to stop me from scratching the skin off my hands. So I tried it. Instantly the itch and pain went away !! I must say I am shocked!! I have been using the product for the last few days and the swelling in my fingers have started to go down. I have now used it on my face and my face looks firmer and fresh. So on this note, I would love to carry your product in my salon. I have started to carry wellness products in my salon and your product would be such an added bonus. Please consider my proposal to carry your miracle Nature's Aid product. I thank you, my hands thank you, and are for ever grateful. Sincerely

First of all, let me start by saying that I "Love, Love, Love" this product. Since it was first introduced to me about 5 years ago, I have not been without any. I have recommended this product to everyone I know and they too "Love" it!

Success Story #1

A few months back, my cat came in from outside. I noticed right away that he had a large cut on his head just above his right eye. It appeared that he may have been in a fight with another cat.

After examining his wound more closely I realized that it was very deep and that a large piece of his skin was off his scalp - about the size of a looney - just barely hanging on. I considered calling a vet but it was a Saturday and I knew that I needed to do something immediately. With warm water, I squirted his wound to clean. After drying, I applied a good "blob" of Nature's Aid on it. He didn't even blink an eye when I did this. For the next several days, I kept him indoors and continued applying Nature's Aid to his wound. Within 2 days the wound had almost closed up. Nature's

Nature's Aid skin gel - Success Stories

Aid seem to have forced any infection to the surface and I easily squeezed it out, but only had to do this a few times. After 4 days, the wound seemed completely healed and within 2 weeks his hair had grown back correctly and you would never know that had even happened to him. I tried to look with a flashlight to see if it had scarred, but I could not find anything. I believe I avoided what could have been a \$300 - \$500 Veterinarian bill!

Success Story #2

I am one of those people that is prone to getting yeast infections. I sometimes have to apply a treatment from the pharmacy more than once to clear it up. Since finding Nature's Aid, I can happily say that I know longer need to buy these treatments. How it works, I don't know, but now I use Nature's Aid to clear this problem. I simply apply an amount to a pantyliner and re-apply a few times a day. I do this for 2, maybe 3 days. This clears it completely up. I actually do not seem to have the yeast infections occur as often as they use to. This stuff is simply amazing!

Here are some other uses that I have for it:

- Bug Repellent (mosquitoes and black flies don't seem to like it)
- Takes redness out of any acne
- Apply to my face every evening - has evened out my skin tone and diminished wrinkles
- Damaged Hair - Once in a while, I apply Nature's Aid to my damp hair after I shower - it completely absorbs and leaves my hair shiny and reduces dryness and frizziness.

Thank you, thank you, thank you, for your wonderful product!

A Very Satisfied Customer

Kim L.

Ontario

I've been suffering with Multiple Sclerosis for 4 years and had been looking for something to lesson the chronic pain and muscle spasms in my legs. Nature's Aid was recommended by my Sister-in-law who uses it for everything for herself and her family as well as for her horses to reduce pain and inflammation. She says that Nature's Aid has replaced most of the products in her first aid kit.

Nature's Aid also gives me immediate relief from my injection site reactions. Just rubbing the gel over the area brings immediate relief; the pain, redness and swelling quickly disappear.

Thanks to Nature's Aid, the dents in my skin (a result of years of injections) have lessened. I have a constant supply of Nature's Aid. This miracle gel has helped me cope with chronic pain and my injection site reactions. I recommend Nature's Aid to everyone.

Kari T.

Sudbury, ON

I just visited your site to see if I could order your product online. I usually get it from my uncle who lives in Sudbury when I go down and see him or he comes here. The thing is I live in Edmonton and I am hooked and can't find it anywhere. I have the 125ml skin jel bottle. And I wanted to know if there was any way I could just get a really large bottle and not have to worry about it for a while. Please let me know if there is a way I can order some, or if there is a store here that carries it that I don't know about. Thank you

Kristy-Lynn

Edmonton, AB

As a surveyor, I work outside in any weather. Every year in February and March for 45 years, the skin at the corners of my thumbs has split, in spite of anything I can do to keep them warm and dry. It's really painful, and nothing has ever been able to help it, until Nature's Aid Gel came along. My thumbs still split, but Nature's Aid provides immediate pain relief, and healing within 36 hours. Simply apply Nature's aid and cover with a Band-Aid and you'll be OK.

Douglas B

Ontario Land Surveyor (Retired)

After three years of using Nature's Aid morning and night as part of my skin care regime, if I go without it for even just a couple of days it really shows. Nature's Aid has smoothed out my skin and evened the tone, kept blemishes away

Nature's Aid skin gel - **Success Stories**

and soothed any redness, re-hydrated after travel and jet-lag and generally kept my skin clear and healthy. There is a glow that Nature's Aid brings to the skin that I cannot do without! The fact that it is all-natural and animal-friendly just adds to the list of great things about this product.

Another virtue is, I don't have to keep a slew of other healing ointments on hand in case of cuts, chapping, and burns ... Nature's Aid covers it all.

L. Jabour

Toronto, ON

I came across your product via a friend. She let me use it for an insect bite that I had gotten. The bite had gotten swollen and was very painful. Upon two applications of Nature's Aid, I could not believe how effective this product was. I'm going to the Middle East and will make sure to bring it.

Lillian,

Thornhill, ON

I have long suffered from painful, open lesions on my face and scalp as a result of skin cancer and chemotherapy injections. These sores were almost impossible to heal until my brother suggested I try

Nature's Aid. Having no success with several other products, I was skeptical but what the heck. What a surprise! The gel worked, easing the pain almost immediately and healing the lesions within a few days. This stuff is the best! I use it on everything!

Christine Fay

Goulais River

Nature's Aid is a remarkable product! When my dear mother was bed ridden, while dying of cancer, she developed a severe bed sore on her tail bone. The nurses were beside themselves, not knowing what to do and I discovered that at the hospitals, they use "Sunlight Dish Soap" on a piece of gauze and tape it to the wound!! Upon seeing this, I was mortified and brought a bottle of Nature's Aid to them and asked them to use it, as I told them I had been using it for many years for all kinds of skin problems. They applied it to the flesh wound a few times a day and within two days a scab began to form. (Unusual for cancer patients to heal so quickly - if at all). The nursing staff was so astonished by the remarkable results, that they asked me to get them some for other patients. My beautiful mother has since passed away, but would have been proud and happy to know that she was instrumental in helping others."

Marlene Shaw

Ontario

My daughter's friend has very bad acne and she has tried everything, including Proactive, so one night when she stayed over at our house, I got her to put a little bit on a spot on her face, she said it felt good, kind of a cooling feeling. In the morning, we were both amazed to see that spot was clear. So I had mentioned to her that if I found out where to purchase more, I would definitely let her know.

Michele

Edmonton, AB

It is a pleasure for me to write some of the benefits of Nature's Aid. My own personal experiences are numerous. I carry a small bottle in my purse at all times and use it on everything, including staple punctures, paper cuts (these heal in 1 or 2 days as compared to more than a week from past experiences). If applied after an injury, from a fall (e.g. scrapes and bruises) the scrapes heal in a day, the bruises may never develop but if they do, they are minimal and do not last long (only a fraction of the severity or duration that would be normal for me). When applied to varicose veins, they decrease both in size and discomfort. It acts as an excellent anti-inflammatory for bruises or sprains, painful joints, etc. After a dental appointment, rather than take pain medication, I simply generously applied Nature's Aid gel to my face - the pain subsided in about 20 minutes and I was able to sleep. I did awaken later with some discomfort, but I re-applied the gel in the morning and that was the end of my pain and discomfort. A man I know involved in printing, had an injury involving a detached tendon in his finger. After a few weeks, the splint was removed, but the finger was feverish, painful, swollen and he could not bend it. He came into my office just hours after the splint was removed. I told him that people had told me that Nature's Aid worked for stiff and sore joints. He applied some to his finger and within 5 minutes, the heat and inflammation had subsided and he could move his finger. I gave him the little bottle I had with

Nature's Aid *skin gel* - **Success Stories**

me. He continued to use it and within days the finger was almost completely normal. He has since purchased Nature's Aid and uses it for numerous things including severe cracks to the hand that printers incur with the use of the harsh chemicals and cleaners. He applies a small amount each time he washes his hands and the cracks in his fingers that normally take 2 weeks to heal are healed in 2 to 3 days. He says that he never goes anywhere without Nature's Aid. He also mixes Nature's Aid with hand lotion and applies it at night and says his hands stay soft and smooth.

*Fran, Mississauga
Health Food Store*

I am writing as my daughter is hooked on your product. She has very severe acne and it is the only thing which has helped. I live in Timmins, Ontario and was wondering where I can get Nature's Aid.

*Dawna
Timmins, ON*

Large or small, when it comes to cellular repair, Nature's Aid is the answer. Fungicidal, bacterial, the versatility of this unique skin care products acts as a wonderful base gel for blending with essential oils. My clients expect and receive the best Natural Health Care. My thanks to Nature's Aid!

Smokey Lake Natural Health Centre (1991)
Owner/Operator, Edmonton*

My Mother-in-law has been using your product since she went on chemo and her hands started to look like they were in a deep-fryer. It's amazing the difference after she started using your product and she is so much more comfortable.

*Brenda
Orillia, ON*

My sister who swears by your product for herself, her horse, dogs and cat, sent me a bottle of Natures Aid to try. I have severe Psoriatic Arthritis and could never begin to tell you the pain I suffer. I had a swollen ankle for two + years the size of a tennis ball on the side of my foot. I started Natures Aid on my feet and hands etc. I am in heaven!! My ankle is nearly back to normal and I can knit again. Now, I can't live without it I can never go back to that pain. My family doctor could not believe the results I got from your product.

In January 2008 I saw my rheumatologist in Halifax and she had taken pictures of my feet. They were so bad. When I go over for my next visit I will get those pictures and have my daughter take new pictures and send them to you. You will never believe they are the same feet. Its a good thing I have webbed toes on both feet so you can be sure the pictures before and after are definitely mine.

*Anna
Stratford, P.E.I.*

Hello...our Canadian family introduced us to Nature's Aid, and we love it! Is there a distributor who would send shipments to the United States? Thank you

*Nancy,
U.S.A.*

My dad is 80 and said this is the best cream he has ever used.

Winter

I had a spaniel dog who had to be shaved due to a bad skin condition. His skin was red and had open sores, so I decided to try Natures Aid. It worked like a charm, his skin cleared up in no time. I use it myself for cuts, burns and

Nature's Aid *skin gel* - **Success Stories**

for my "puffy eyes". It is the best product I have ever tried, and I have tried a lot. I have stopped using face creams - all I need is Natures Aid. When my legs ache I just apply Natures Aid - within half an hour the ache is gone. A friend of mine had shingles so I suggested Natures Aid. She bought a bottle and it cured her "itch" It is very inexpensive compared to any other product. A 500 ml. bottle lasts me for a very long time It is excellent for so many problems and it works wonders for me. Thank you for the wonderful product.

Lammi
Ontario

After our baseball tournament yesterday, we all went out to Starbucks for coffee. After getting my coffee, my teammates were talking about their success stories with Natures Aid and how they would never live without it. All the people who didn't know about it, all went out to Paris Natural foods and bought jugs of it. I had to laugh.

Our German Shepherd had really bad hot spots and really, really dry skin every where. Nature's Aid was the only thing that got rid of them and gives her any relief. Every time I take out the bottle of Nature's Aid, she comes running for more. It works like a charm.

My husband and I have been buying your product for about 3 or 4 years here in Edmonton, Alberta, and the store we usually buy at has recently closed. We have been to all the major stores one would expect your product to be found at but we have had no luck. Thank you for your assistance.

Your customer desperately seeking your product,

Michelle & Shawn
Edmonton, AB

I was introduced to your product about 2 years ago by a friend and have never found anything like it since. I was wondering where I can purchase Natures Aid in the Toronto /GTA or in Ottawa/Kingston area as my original source was in Sudbury and I do not have a reliable source any longer.

Alex F.
Toronto, ON

I have used Nature's Aid for approximately two years now, but the Health Food Store that I bought it from has closed down, so I checked a very popular health food store, "Planet Organic" and they do not carry it, but they have had many requests for this product. I have psoriasis and this is the only product that seems to keep the lesions thin and stops the itch and pain. We have used this product for many things, such as bug bites, dry skin, blemishes, achy muscles, turf burn, etc.... If you could let me know where I can purchase more of this product I would really appreciate it. I must say that there is no other product that works like Nature's Aid skin gel.

M. Draghici
Edmonton, AB

I am interested in purchasing Nature's aid. I have breast cancer and someone recommended Nature's aid for when I get radiation treatments

Alice

Ontario

Nature's Aid *skin gel* - **Success Stories**

I have been using Nature's Aid for about 7 years now to relieve my skin after waxing. I used to work at a pharmacy in the Sudbury area and have since moved to Rockland, near Ottawa. Can you please tell me if anyone around here sells Nature's Aid? Thanks for the great product!

Dana B.

Rockland, ON

I am a HUGE fan of Nature's Aid, but I do not know where to purchase it in my area. I live in Caledon, Ontario; between Brampton and Orangeville. Are there any retailers in the Toronto, Mississauga, Caledon, Orangeville, Oakville, Guelph, Milton etc. areas which may carry this product? Thanks!

Dana

Caledon, ON

I recently purchased a small bottle of Nature's Aid and used it up quite quickly. I am wondering where I could purchase a larger quantity of this product in the Edmonton, Alberta area. Could you kindly send me a list of retailer's whom carry your fine gel. Many thanks.

Edmonton, AB

I live in Pembroke Ontario and use nature's aid. I bought it in Sudbury but I don't know when I will be there. I am starting to run out and was wondering if there is a location closer to me. Thank you.

Robert G. (seriously)

Pembroke, ON

I received a bottle as a gift. Now I'm just looking to get a bottle for someone else. Thanks

Cortney

Ottawa, ON

I have been looking for the Nature's Aid gel in the Peterborough ON area but have not been able to find any. I am frequently in Lindsay, ON as well, where can I find it in either of these towns? I purchased my original bottle 2 years ago in Sudbury and it has lasted me to now, I love it!!

Tara S.

Ontario

I am wondering where I might be able to pick up more of this product. Who sells it in Edmonton, Alberta, Canada?!?! I cannot for the life of me remember where I picked up the bottle I have now! Thanks in advance and looking forward to your reply!!

Heather S.

Edmonton, AB

Nature's Aid is great for everything! I use Nature's Aid on my own sensitive skin as a head-to-toe moisturizer and, also after being out in the sun or the dry cold. My mother has used Nature's Aid to help with post-surgery healing and my brother has used it to treat his infant daughter's mild eczema. I'm looking forward to an occasion to treat my pets with it! I'm reassured by the fact that Nature's Aid contains such clean and natural ingredients, unlike most commercial skin care products.

Nature's Aid *skin gel* - **Success Stories**

Hey, I'm 16 years old and have acne. I'm just wondering if natured aid will cure it. I want to know how I should use this for my acne and how many times a day I can put it on. Also before I go to bed I have a facial cleanser. Would I just rub on the natures aid over my whole face and blemishes and let it stay on overnight? Thanks

Anthony
Ontario

We are Canadian but are currently in Arizona. My husband has shingles and has not slept for a week because he has shingles. The itching sensation is unbearable. A friend uses your product for eczema and recommended it. Where can we purchase it in Phoenix? Thank you so much.

Denise M.

My husband emailed you about some information about ordering some of your product. I actually became aware of your product through one of your clients. We used to work together at a hair salon and he told me about your product because I used to have really bad cracks and dryness on my hands due to my work. He brought in a bottle for me to try and, it worked amazingly!! So needless to say, I'm wanting more! ha! ha!

Cindy L.
North Bay, ON

I was introduced to your product by the lady that cuts my hair, Connie Mann of Mesa, Arizona, and I am interested in getting some for myself. Do you ship to the States and if so how much is a gallon? Thank You

Dwain E.
Mesa, Arizona
USA

I reside in Barry's Bay, Ontario but spend my winters in Florida. Our neighbor whose daughter is suffering with itchy skin from having dialysis 3 times a week is interested in purchasing your product after trying your product that I brought down with me. Do you ship to the USA and if so, would you let me know what the prices are for the following sizes -- plus shipping: 500 ml - 1L - 4L

Your early response would be very much appreciated.

Donna C.
Barry's Bay, ON

We have just heard about your product but have been unable to sample it yet. A lady in a local health food store said that people are buying this to use on their horses. We have an Equine tack shop and would be interested in carrying your product if it would benefit our customers. Can you please let us know if you are interested in us being a supplier. Thanks in Advance.

Doug and Susan

I've tried your product, and LOVE it! Would like to know who sells it in my area. Thank you!

Marnie,
Sudbury, ON

I live in Milton, Ontario Canada and looking for a distributor in this area to purchase your product. We have purchased in the past, but no longer have contact with the original distributor we used to purchase from. Your help would be greatly appreciated. Thanks

Kathy
Milton, ON

Nature's Aid skin gel - **Success Stories**

The store that I used to purchase Nature's Aid has closed down (Organic Roots). Are there any other places in Edmonton to purchase your product? Thanks.

*Shawn
Edmonton, AB*

I really enjoy your product and would like to purchase some more but the store I get it from is always out or on order. I would like to know if any other store carries it in or around my area. I live 200 km north of Edmonton, AB. My sister owns a business number to sell and has a store that carries fabric, craft and art supplies, cleaning products. Would she be able to buy wholesale from you? What would be the amount on her first purchase?

*Simon S.
Alberta*

I have tried your product and love it - my husband picked it up in travels & I am wondering if there is a dealer near me. We live at Unity, Saskatchewan. Thank you for your time.

*Terri M.
Unity, Saskatchewan*

I was wondering where I could find Natures Aid in Toronto? Also I am interested in possibly carrying some for my business, I am a Fitness and Nutrition Coach. Could I get more details about it? Thank You,

*Tina D.
Toronto, ON*

While suffering from a painful wisdom toothache, I tried Tylenol and Advil. Neither worked. I guess my mother got tired of listening to me whine and complain, so she told me to rub Nature's Aid on my gums. She uses Nature's Aid for everything. This time I thought she had actually lost it. How could Nature's Aid help alleviate a toothache? Within a couple of minutes of application, the pain was completely gone, and the relief lasted well into the next day. Now when it aches, I rub the gel on my gums for quick relief. I keep a small bottle with me at all times -- for everything.

*Riley
Ontario*

Nature's Aid is a necessity in my busy practice. With my twenty years of experience, my clients rely on my expertise in treating various skin conditions. I can say confidently that within four weeks of using the gel, redness, blemishes and inflammation are visibly reduced. This is a product that belongs in everyone's home!

*Wendy Goodwin-McColl,
Esthetician/Laser Technician
Business Owner*

Nature's Aid is a miracle formula? While rushing around to get ready for a pool party, I tripped on the cement stairs, badly scraping and banging up my shins. I immediately applied Nature's Aid, which gave me great relief. After a while, the swelling was gone and the scrapes were barely noticeable. It was like magic!! I totally trust Nature's Aid for any first aid treatment and recommend it to everyone. I also love to use the gel on face - it makes my skin feel so soft!

Nature's Aid *skin gel* - **Success Stories**

I am contacting you about carrying nature's aid in my store. It is a book and gift shop, but I cannot seem to get this product anywhere where I live and I know that it is popular. If you could please send me information about purchasing this product I would greatly appreciate it. Thank You

Lisa

Nature's Aid has worked wonders for me. I had second degree sunburn on my head, face, arms and legs. Within 2 weeks of using Nature's Aid, 2 times a day, the burns were healed. When the Doctors first saw my burns, they told me that I would probably be left with scars because of the severity of the burns. I'm very impressed because I don't have any scars. I recommend Nature's Aid to everyone. I've enclosed pictures for you to see.

Greg. V.

Sudbury, ON

A few months ago I fell flat on my face and cut up my hands and face very bad. My face was a mess and was convinced that I would be left disfigured. A co-worker gave me a bottle of Nature's Aid and told me that it would really help me. I was truly impressed with the results. I don't have any scarring.

I also had a mole above my eyebrow that turned black and was worried that it was cancerous. I was told by my Doctor that it would have to be surgically removed. In the meantime, I thought I'd try Nature's Aid. Surprisingly, after 5 or 6 weeks of applying Nature's Aid, the black mole just fell off. You can't even see where it was. My Doctor was really impressed and I was so happy to cancel my surgery.

I sent some to my father who rubs it on his joints and says it works better than anything he's ever tried. Nature's Aid is an amazing product. Thank you

Johanne B.

Ontario

A friend visiting from Ontario had some and I used it on my arms that were sunburnt and really unsightly, it calmed the skin down immediately.

Elaine T.

Halifax, NS

This product was highly recommended to me by my friend. Where can I purchase this in Montreal, preferably the west island. Thanks,

Lois

Montreal, QC

My 4 year old son was bitten by a dog and had to get over 30 stitches around his eye and some on the face. I was mortified! I was told that because of the depth of the bite, he would most likely have muscle and nerve damage to his eye and face, and that he had to see a Plastic Surgeon as soon as he had his stitches removed.

He saw the surgeon a few days after his stitches were removed. After examining him, he kept questioning me about the injury date. I hadn't told him that I had been applying Nature's Aid around the stitches, then once the stitches were removed, I applied on the scars. He told me that he didn't have any signs of muscle or nerve damage and that the healing was in the advanced stages. He was very impressed! I know that Nature's Aid is the reason why he wasn't left with any damage. I use Nature's Aid for everything. I've included pictures.

Anne M.

Ontario

My Son is very accident prone. This time he leaned on a hot element that had just been turned off from high. He had a delayed reaction; not removing his arm right away. The poor guy was left with 3rd degree burn. The first thing I did was grab Nature's Aid and apply it on his burn. He said it hurt a lot but knew that the gel was doing "its thing". I

Nature's Aid skin gel - **Success Stories**

applied it to his burn 2 to 3 times a day and was so surprised to have it completely healed by the 12 th day. I was shocked!!! He doesn't even have a scar. I've sent pictures of day one to the 12th day so you can see for yourself. This amazing gel is a "MIRACLE IN A BOTTLE"!!

Eileen
Toronto, ON

Hi I'm interested in purchasing Nature's aid, but I don't know where to get it. I live in Mississauga (Port Credit area) or near the 427 and Evans in Toronto. Is there anyone that sells your product around these areas?? Could you please let me know. Thanks

Alice
Mississauga, ON

You have an excellent product so why is it so difficult to find it anywhere? We are in Halifax NS. Please let us know where and how to buy Nature's Aid healing lotion. Thank you

John S.
Halifax, NS

I live in the Toronto area, and was wondering where I could find your product. Any stores in Richmond Hill, Vaughan, Barrie and St. Catharines, Ontario would be helpful. Thanks. Looking forward to trying your product, I've heard fantastic things about it.

Briar
Ontario

I am interested in Nature's Aid. Can you provide me with a list of places where this product can be purchased in or around Tulsa, Oklahoma, USA? Thank you for your assistance.

Jenny
Tulsa, Oklahoma, U.S.A.

I am emailing you regarding Nature's Aid. Please advise whether an individual can order your product directly from the Company and if so, please provide details. If not, please advise where I can purchase it from. For your information, I live in Lunenburg, Nova Scotia. Thank you,

Dianne L.
Lunenburg, NC

Can you please tell me if your product is available in the U.S.; specifically, Las Vegas? Thank you,

Liana
Las Vegas, U.S.A.

I live in Burnaby British Columbia and i was wondering where I could purchase some Natures Aid. I just moved here from Ontario where I bought it at my pet store. Thanks. Please e-mail me back.

Burnaby,
British Columbia

I have recently been introduced to your skin care product and would be interested in purchasing. Could you please provide me with a list of possible retailers in my area. I live in the west end area of Winnipeg Manitoba, and if you could also give me an approximate price of the different size containers to help in the choice of purchase I would appreciate it.

Winnipeg, AB

Nature's Aid skin gel - **Success Stories**

I was given a small sample of your Nature's aid at the Women's Show and loved it!
Where can I purchase it here in Toronto?

Lorna
Toronto, ON

I recently purchased a smaller sample size in Toronto Ontario while on vacation and I love it. I live in Calgary, is it for sale here?? Regards,

Jodie S.
Calgary, AB

I have used Nature's Aid now steadily for 3 years and cannot live without it! I am currently out of it though, and recently moved to downtown Toronto. Can you please let me know where I might buy it - I have checked a few health food stores with no luck. If you have a specific place you recommend I buy it, I would appreciate the info!

Lenni
Toronto, ON

I live in Toronto ... I've been to a few health stores and pharmacies and I can't find your product..is there any way to order this product online.. my sister found it in Sudbury and says it's wonderful!! where will I find it? Thank you

April
Toronto, ON

I was at my health store today and they happened to get a sample of your product. I have been dealing with the effects of a mastectomy (no chemo or radiation) but they did take my left breast and some lymph nodes. They knew at the health store that I am trying to regenerate the area from surgery, so they gave me their sample that you sent. Of course now I would like to know where I can get a larger, much larger quantity. I live in Calgary, Alberta and was wondering if you could tell me where in this area I can find this marvelous product. I have your pamphlet and would love to try it on so many other things as well as the area I'm in the process of healing. I would appreciate any information on where to get Natures Aid Skin Gel. Please and Thank You

Debbie M.
Calgary, AB

I would like to know where to purchase Nature's Aid in the Kingston area. Also could you tell me how this product stimulates the growth of hair. What is the best way to apply it to your hair and how often would it be applied. I have a problem with scalp dryness and cannot use many shampoos without getting an itchy scalp. I am prone to eczema, and rosacea, and am planning to use this gel for these problems, especially when I have my most serious problems in the summer months. Thank you in advance for your help!

Gloria M.
Kingston, ON

We've been using your product for over a year now, on cuts, split dry finger tips, etc. and we were wondering where in Canada your product is made. We love this product and recommend it to everyone.

Thank you for coming up with such a marvelous product.
J. Johnson

I bought a bottle of Nature's Aid while staying in Edmonton. However, I live in Prince George, BC and have not been able to find a location that sells Nature's Aid. Is it possible to buy it on-line? Do you have any other suggestions on where I would be able to buy this product? Thanks,

F. Aldridge
Prince George, BC

Nature's Aid skin gel - **Success Stories**

Do you have a Canadian distributor? One of our customers would like us to order your product. Thanks,
Maureen
Edmonton, AB

I live in the United States and would love to order some gel..I've been a long time user...approximately 14 years. Thanks,
Melissa M.
U.S.A.

I am just following up on where to buy your products, as I have a dog with terrible skin problems including hot spots etc.. I am located in Ajax, Ontario. Please let me know and thanks so much we have tried everything possible from both the vet and naturally as well.
Stacey
Ajax, ON

Our Canadian family introduced us to Nature's Aid, and we love it! Is there a distributor who would ship your products to the United States? Thank you!
Nancy
U.S.A.

I have previously tried your product, and liked it very much. I would like to purchase more; where is Nature's Aid sold in Ottawa? Please let me know. Thanks
Camille
Ottawa, ON

I am a Canadian, living in Austin TX. I have been searching for your incredible product. Do you have any accounts in the Austin area? If not, can I order your product from this web site? Thanks,
Jennifer A.
Austin TX, U.S.A.

Our vet gave us a sample and I would like to purchase a bottle for both our golden (who has cancer) and ourselves. I love it!!
Brenda S.
Calgary, AB

Hi I recently tried (and so far love) your skin gel. I bought mine at Planet Organic but I'm looking for somewhere closer that carries it. I live in Edmonton, Alberta. Do you have a list of places that have your product? Thank you :)
-Leah-
Edmonton, AB

I love this product and am eager to find it. I live in Barrie, ON, do you know where I can find a business that sells it! Thank you.
Natalie
Barrie, ON

Nature's Aid *skin gel* - **Success Stories**

I love your product !! Used it so far for insect bites, and to clean a wound, now I have 2 questions..... I'd like directions to use it on tiny warts probably plantar warts on my feet, how do I apply it and how often?? Also is it any good for dandruff?? if so again how to I apply it and how often.....and how long before I see results?? Thank you so much.
D Desjardins.

I purchased Natures Aid and I can't get it away from my daughter. She said it works very well on her acne breakouts. Even better than Proactive. I've also used it on my sons feet...it was a type of fungus and they were peeling TERRIBLY. It seems to have taken care of it too. Good stuff!

*Melinda
Ontario*

I tried your product! I LOVE it. I want more! Where do I get it? :)
Andrea S.

I was given a small sample of your Natures Aid at the Women's Show and loved it! Where can I purchase it in Toronto?
Kind regards,
*Lorna
Toronto, ON*

I bought your product last night for my 19 month old daughter who has had a very bad rash and eczema since he was 10 months and nothing the doctor gave us would work or it would work but as soon as you stopped using it would continue to come back. After purchasing your product, I was very reluctant, I didn't think it would actually work as the ladies at the store told me it would help a lot. So, the first diaper change i did that night after coming home I used your product right away and then keep using it every time i changed her diaper when she woke up this morning it was like there was nothing wrong, the rash was gone and the eczema had stopped making her scratch it was cleared. I am very impressed and will continue to purchase your product when I have finished the small sample bottle I bought. Thank you for your product!

*Chantelle H.
Toronto, ON*

I love your product!!!!!!!!! Now I'm using it for my husbands scalp condition. He is loosing hair and his scalp is itchy and flaky. I purchased it in North Bay, but I live in Port Colborne and need to know where I can buy it. I appreciate hearing from you soon. I need your product.

*Brigitte
Port Colborne, ON*

My friend bought this product up north while on vacation and let me try it on some insect bites on myself and acne on my daughter. We both loved the results the only thing is that I am having difficulty finding it. I live in Etobicoke, Ontario. Are there any stores that have this product near me? I am willing to go a little farther to purchase this. Can you please let me know as my daughter is anxious to continue using this for her acne. You can email me. I thank you in advance.

*Claudia
Etobicoke, ON*

Could you please e-mail the locations in Edmonton where your Nature's Aid Skin Gel is available for purchase. I have acquired a sample of your product through my husband. Your company sent him a sample at his place of work. He is Head Medical Trainer with the Edmonton Oilers Hockey Club and he has passed the sample to me to investigate and

Nature's Aid *skin gel* - **Success Stories**

do some research on applications for it both for the team's usage or ours personally in the family. Thank you for your co-operation.

Marianne
Edmonton, AB

While I was in Ontario a couple of weeks ago, I purchased a small bottle of this product. Since returning home to Alberta, I have yet to find it here. Could you please give me a location closest to me. I live in Hinton, AB and work in Jasper, AB. I checked both health food stores but neither had heard of this product. I love it for my face and am almost out. I appreciate any help you can give me. Best regards

Caroline
Hinton, AB

My brother uses this product and absolutely loves it.. I want to pick some up. He lives in Thunder Bay. He went to Sudbury and purchased it there, so we are wondering a store locator for Natures aid would be great. I went on your website but couldn't find it. Thanks for your help.

Sue V.
Woodstock, Ontario

I have used your products to treat my daughters skin condition and it works very well. It is nice to also see, that the product is manufactured in Ontario. Is it possible to order directly from your company; instead of purchasing your product through the health food stores. Thank you,

Domenic S.
Ontario

I'm sure you know how fabulous this Nature's Aid is - just want to let you know how grateful I am to have been introduced to it. I'm constantly finding uses for it with great success and I really like that it is a natural product.

Mary
Ontario
